- Taking chairs outside and leaving them there exposed.
- Stepping on painted walls and leaving dirty marks.
- Sharpening drawing pencils against the walls
- Removing sockets from the wall or breaking them.
- Leaving lights on even where nobody is using them
- Breaking mirrors in the washrooms.
- Kicking flash doors and punching holes in them in the process
- Cannibalizing computer parts and cables in the laboratories.
- Breaking glasses on doors and windows.
- Littering the University compound.
- Leaving water taps running.
- Not walking on designated paths.

Students are advised to use *UNIVERSITY* FACILITIES in a manner that will guarantee value for money invested in acquiring these facilities.
